

SQL Quiz :

```
CREATE TABLE IF NOT EXISTS public.quiz
(  
  id integer,  
  quiz_name character varying NOT NULL,  
  deleted boolean NOT NULL DEFAULT false,  
  PRIMARY KEY (id)  
);
```

SQL Question :

```
CREATE TABLE IF NOT EXISTS public.question
(  
  id integer,  
  quiz_id integer NOT NULL,  
  question character varying NOT NULL,  
  deleted boolean NOT NULL DEFAULT false,  
  PRIMARY KEY (id)  
);
```

SQL Choice :

```
CREATE TABLE IF NOT EXISTS public.choice
(  
  id integer,  
  question_id integer NOT NULL,  
  answer character varying NOT NULL,  
  is_correct boolean NOT NULL,  
  deleted boolean NOT NULL DEFAULT false,  
  PRIMARY KEY (id)  
);
```
